## **WORLD POLIO DAY**

Students of Semester II and IV(Hons.)

Department of Microbiology

Rabindra Mahavidyalaya

Champadanga, Hooghly

**Venue:** Department of Microbiology **Room No. 41**

**Date:** **24<sup>th</sup> October, 2022**

**Time:** **2:00 PM**

**Target Group:** Students of Semester II and IV(Hons.)

**Number of Member present:** 18 (Eighteen)

### **Report:**

We have celebrated the **World Polio day** on **24<sup>th</sup> October, 2022** in our Microbiology Department in **Room no. 41 at 2:00 PM**. The faculty member of this Department Dr. Joydip Ghosh was delivered a speech about the importance of this day celebration. Total 15 (Fourteen) students, 5 semester II and 10 semester IV students along with 3 (Three) faculty member attends this Programme.

### **Outcome:**

The purpose of these programme students should know about such a special day. World Polio Day highlights the global efforts to end poliomyelitis (polio) worldwide. Polio is a life-threatening disease caused by the poliovirus, which the World Health Assembly committed to eradicate in 1988. The **WHO** European Region was declared polio-free in 2002 and has sustained this status every year since then.

Every year on 24 October, we observe World Polio Day to raise awareness of the importance of polio vaccination to protect every child from this devastating disease, and to celebrate the many parents, professionals and volunteers whose contributions make polio eradication achievable.

To ensure a polio-free future for everyone, efforts must continue to maintain high immunization coverage, implement high-quality surveillance to detect any presence of the virus, and prepare to respond in the event of an outbreak.

### **Feedback:**

Get good response from the students. Students celebrated the day with joy and interest.
